Date

<sup>1</sup> Distance learning program codes will end with "/D". If the program code exceeds the 12 characters when "/D" is appended, then program code will be shortened by eliminating characters from the concentration portion of the code with a minimum of 2 characters first, before shortening the major portion of the code. For example, DDS-GCERT/D.

<sup>2</sup> The program description will include "DL" next to the program name in the description. For example, Computer Science (DL)-MS.

<sup>3</sup> Effective Term should be the term in which the distance learning program became a provisional/established program.
