Concentration	(4) _____	_____	<input type="checkbox"/> See Banner form STV_MAJR
Minor	(4) _____	_____	<input type="checkbox"/> See Banner form STV_MAJR

If a similar major/concentration code exists in Banner, please list the code: _____

Justification to warrant a new major/concentration code similar to an existing major/concentration code:

Is this major/concentration code being used the same way at the other UH campuses? Yes No

Should this program be available for applicants to select as their planned course of study on the online application? *If yes, student may select the code as their only program of study.* Yes No

RULES PERTAINING TO FINANCIAL AID AND 150% DIRECT SUBSIDIZED LOAN LIMIT LEGISLATION

Is 50% or greater of the classes in this program offered at a location other than the Home Campus? Yes No

Is this program/major/certificate financial aid eligible? Yes No

Does this certificate qualify as a Gainful Employment Program (Title IV-eligible certificate program)? Yes No

See <http://www.ifap.ed.gov/GainfulEmploymentInfo/index.html>

Program Length

In academic years; decimals are acceptable. The length of the program should match what is published by the campus in any online and/or written publication.

College of Natural Sciences
Office of the Dean

April 7, 2021

MEMORANDUM

TO: Laura E. Lyons
Associate Vice Chancellor for Academic Affairs

FROM: Aloysius Helminck
Dean, College of Natural Sciences 

SUBJECT: CONCENTRATION CODES FOR COLLEGE OF NATURAL SCIENCES DEGREE TRACKS

SPECIFIC ACTION REQUESTED:

It is requested that concentration codes be created for formal tracks within College of Natural Sciences' degree programs, and that they be notated on student transcripts.

REQUESTED EFFECTIVE TERM:

Fall 2021

RATIONALE/PURPOSE OF PROPOSED CHANGE(S):

To formalize the procedures for recognizing approved tracks within the BS in Mathematics, BA in Information and Computer Sciences, and BS in Computer Science degrees. This will ensure consistent documentation of students' programs of study and support more effective student data tracking practices across programs.

Tracks Requesting Codes:

- BS Mathematics – Data Science
- BS Mathematics – General
- BA Information and Computer Sciences – Security Science
- BA Information and Computer Sciences – Information Technology (stop out effective Fall 2021)
- BA Information and Computer Sciences – General Track
- BS Computer Science- Data Science
- BS Computer Science – Security Science**
- BS Computer Science – General

BACKGROUND:

There have been ongoing discussions with the Office of Vice Chancellor of Academic Affairs, Office of the Registrar, CNS Academic Affairs, and the CNS Student Academic Success Center, and the decision to request concentration codes for all approved tracks was the recommended course of action.

ACTION RECOMMENDED:

It is recommended that concentration codes be created for tracks within College of Natural Sciences' degree programs, and that they be notated on student transcripts.

MEMORANDUM

June 7, 2018

TO: Michael Bruno Interim Vice Chancellor for Academic Affairs and Vice Chancellor for Research

FROM: Aloysius Helminck Dean [Signature]

SUBJECT: Program Modification for the B.S. in Mathematics, Creation of a track in Data Science

Please find attached a proposal to modify the program requirements for the Bachelor of Science (B.S.) degree in Mathematics. The request is to create a track in Data Science, while retaining the current BS as a 'general' track.

The proposal was reviewed and passed by the College of Natural Sciences Program & Curriculum Committee on March 13, 2018. We apologize for the tardiness of this submission to the OVCAA. The CNS Dean's Office, Department of Information & Computer Sciences, and the Department of Mathematics have been collaboratively working to ensure that this request reflects the uniqueness of the proposed Data Science track in Mathematics relative to the track recently approved for the B.S. in Computer Science.

APPROVED DISAPPROVED:

Effective Date: Spring 2019

From: Ralph Freese 
Chair, Department of Mathematics

Subject: Creation of a Data Sciences Track in the Mathematics BS degree

The faculty of the Department of Mathematics (MATH) requests to establish an official Track in Data Science for the BS in Mathematics.

The program changes to achieve this effective starting in the Spring 2019 semester are:

For the Data Science track, students will be required to take Math 301, 407, 442, 471, 472 for their five elective Math 300-479 courses, ICS 111 and 314 as prerequisites and ICS 211, 311 and 435 for nine of their required 15 credits in "additional mathematics courses numbered above 300 to 479 or appropriate non-introductory courses in related fields."

The Data Science track adds the following prerequisite or required courses:

- MATH 301 "Introduction to Discrete Mathematics"
- MATH 407 "Numerical Analysis"
- MATH 442 "Vector Analysis"
- MATH 471 "Probability"
- MATH 472 "Statistical Inference"
- ICS 111 "Introduction to Computer Science I"
- ICS 211 "Introduction to Computer Science II"
- ICS 311 "Algorithms"
- ICS 435 "Machine Learning Fundamentals"

Mathematicians with training in Data Science are in high demand both locally and nationally. The faculty in Math wants to provide students with the opportunity to enter this growing field of data

MĀNOA

science with all the skills and knowledge they need to be successful in their future career. The faculty also wishes to provide academic offerings useful to the new Hawaii Data Science Institute. The Math Department consulted with the ICS department in the early stage of development of this new track. Math intends to continue a close collaboration with ICS in the implementation and operation of the new track.

All the required courses are currently being offered by the two departments on a regular basis. The availability of the Math and ICS courses has been discussed with the ICS department. MATH 301 is currently offered once every three semesters; if we need to offer it once every two semesters that will be a small increase in our overall teaching load

The current and modified UHM catalog entries are shown below. The program sheet and sample 4-year plan are also attached.

Current Catalog Entry:

BS Degree

Requirements

Students must complete PHYS 170/170L and PHYS 272/272L, as well as MATH 244, or MATH 253A, and must complete 24 credit hours in mathematics courses numbered between 300 to 479 and 15 credit hours in additional mathematics courses numbered above 300 to 479 or appropriate non-introductory courses in related fields including:

- MATH 311 or MATH 307
- MATH 321
- MATH 331
- 6 credit hours in a writing-intensive mathematics course
- 6 credit hours in courses numbered above 400
- Students must also complete MATH 480
- Only courses in which a student earns a grade of C (not C-) or better will be counted toward fulfillment of major requirements
- A cumulative 2.0 GPA in all completed upper division mathematics courses is required
- All mathematics majors are required to see a mathematics advisor each spring semester prior to fall registration

2565 McCarthy Mall, Keller 201
Honolulu, Hawaii 96822

Major Requirements for BS in Mathematics

Admission: Open

Application: NA

Min. major credits: BS = 44 (68 with related requirements)

Min. exit GPA: 2.0 GPA in the major

Min. C grade (not C-) in courses

Requirements**Mathematics Prerequisites Requirements (11 credits)** MATH 241*^{FQ} or 251A*^{FQ} MATH 242 or 252A MATH 243 or 253A**Related Mathematics Requirements (13 credits)** PHYS 170*^{DP} / 170L*^{DY} PHYS 272*^{DP} / 272L*^{DY} ICS 111**Mathematics Courses (44 credits; see department for approved courses; see catalog for prerequisites)** MATH 244 or 253A

Students must demonstrate an understanding of algorithms and logic, as well as precision of thinking. Courses that satisfy this requirement are MATH 190, 301, 304L, 305L, 407; CEE 417; EE 160; ICS 110C, 110D, 111, 211; GG 250; ME 360; PHYS 305.

24 core credits in MATH 300-479 courses:

 MATH 311 or 307 MATH 321 MATH 331 MATH 301 MATH 407 MATH 442 MATH 471 MATH 472

15 related credits of additional MATH 300-479 or approved non-introductory courses in natural or information sciences:

 ICS 211 ICS 311 ICS 314 ICS 435

The following requirements must be fulfilled in regards to the 39 above credits (check completed):

 6 credit hours in writing-intensive mathematics courses 6 credit hours in courses numbered above 400 2 credits in MATH 480 (CR/NC only) (Spring only, last semester)

Substitution allowed: (ICS 141 and ICS 241) can be a substitution for MATH 301 in the Data Science Track only. In that case, students must take another 300+ level math course and another 300+ level course for one of the diversification courses (DA/DH/DL or DS).

Additional Mathematics Restrictions*Only one of MATH 307 and 311 may be counted toward major requirements.**Mandatory advising each semester prior to registration.***Notes**Student Academic Success Center: Keller 213; (808) 956-5911; cnsadvis@hawaii.edu; www.hawaii.edu/natsci/advisingMathematics Department: Keller 401-A; (808) 956-4680; office@math.hawaii.edu; www.math.hawaii.edu

Mathematics Undergraduate Advisor: Keller 419; (808) 956-4679

There may be exceptions to the major requirements listed above. Please schedule an advising appointment with Undergraduate Advising personnel, for more detailed information.

University of Hawaii at Mānoa – Four-Year Academic Plan 2018-2019

Colleges of Arts and Sciences

RE: Undergraduate Program change: Creation of a Data Science track for BS in Computer Science degree

The faculty of the Department of Information and Computer Sciences (ICS) requests the establishment of an official Track in Data Science for the BS in Computer Science.

The program changes to achieve this **effective starting in the Fall 2018 semester** are:

- For the BS in Computer Sciences program we will add a Data Science track. The required courses are 111, 211, 212, **235**, 311, 314, 321, **434, 435, 438, 484, MATH 301, MATH 307, MATH 372.**

The Data Science track adds the following required courses:

- ICS 235 "Machine Learning Methods"
- ICS 434 "Data Science Fundamentals"
- ICS 435 "Machine Learning Fundamentals"
- ICS 438 "Big Data Analytics"
- ICS 484 "Data Visualization" and
- MATH 301 "Introduction to Discrete Mathematics",
- MATH 307 "Linear Algebra and Differential Equations"
- MATH 372 "Elementary Probability and Statistics"

The Data Science track removes the following required courses:

- ICS 141 "Discrete Mathematics for Computer Science I"
- ICS 241 "Discrete Mathematics for Computer Science II"
- ICS 332 "Operating Systems"
- and Two 300-level courses

Major Requirements for BS in Computer Science Data Science Track

Admission: Open

Application: NA

Min. major credits: BS = 54

Min. B (not B-) grade in ICS 111, 141, 211 and 241; min. C grade (not C-) in all other courses

Requirements

- To enroll in all courses requiring Calculus II as their prerequisite (ICS 311, MATH 307, and MATH 372), students must take MATH 242 for their Calculus II requirement.
- MATH 215 or 241 (Calculus I) is a prerequisite for MATH 242. However, students must meet the grade requirement B (not B-) or better in MATH 215 to enroll in MATH 242.

Required Courses (45 credits)

- ICS 111 minimum "B" (not "B-") grade or higher to advance
- ICS 211 minimum "B" (not "B-") grade or higher to advance
- ICS 212
- ICS 235 (Fall only)
- ICS 311
- ICS 314
- ICS 321
- ICS 434
- ICS 435
- ICS 438
- ICS 484 (Spring only)
- MATH 301
- MATH 307
- MATH 372

 BS Computer Science Data Science only (9 credits)

The courses may include ICS courses or courses from other departments as long as they are approved by an ICS advisor and meet the minimum total of 9 credit hours.

- Data Science Elective 400+ approved by ICS advisor
- Data Science Elective 400+ approved by ICS advisor
- Data Science Elective 400+ approved by ICS advisor

Substitution allowed: (ICS 141 and ICS 241) can be a substitution for MATH 301 in the Data Science Track only. In that case, students must take a 300+ level course for one of the diversification courses (DA/DH/DL or DS).

Total Credits	31	Total Credits	60	Total Credits	91	Total Credits	120

Notes:

- Students must take placement exams to be able to register for CHEM 161 and MATH 215 or 241.
- To enroll in MATH 242, students must meet the grade requirement of B (not B-) or better in MATH 215.
- Substitution allowed: (ICS 141 and ICS 241) can be a substitution for MATH 301 in the Data Science Track only. **In that case, students must take a 300+ level course for one of the diversification courses (DA/DH/DL or DS).**
- Students must incorporate all focus requirements into this plan.
- 45 upper division (300+ level) credits are required

August 21, 2017

MEMORANDUM

TO: David Chin, Chair
Department of Information and Computer Sciences

FROM: Michael Bruno,
Interim Vice Chancellor for Academic Affairs
and Vice Chancellor for Research 

SUBJECT: Approval of Program Modifications for BA in Information & Computer Sciences, and BS in Computer Sciences

We have reviewed your (revised) requests to modify the following programs:

- BA in Information and Computer Sciences: add tracks in Security Science, and Information Technology
- BS in Computer Sciences: add track in Security Science

Both requests are approved, effective Spring 2018.

Attachments

c: Interim Associate Dean Ranker
STEM Coordinator Higa
Registrar Lau
Catalog Coordinator Nakashima

Sample Schedule: B.S. in Computer Science

(for students on the 2017-2018 Arts & Sciences College Program Requirements and are declared CS majors)

Attached is a sample schedule for a student seeking a Bachelor of Science (BS) in Computer Science. Please note the following important points:

- **This schedule is only a starting point.** The sample schedule was created to assist you when meeting with your advisor(s) to plan coursework, and does not include all the coursework required for a degree as you are able to “double-dip” some of your requirements. It is more a “point of departure” than a “road map,” and should not be considered a substitute for meeting with your advisor(s) and devising a 4 year plan that matches your interests and goals. You may also attend summer session as a means of getting ahead or completing the coursework shown in the schedule.
- **The sample schedule is only a planning aid. It does not include all the requirements for a degree.** UHM students have an exceptional amount of freedom in crafting their own college experience, choosing from breadth of academic fields, and fulfilling degree requirements using a wide range of course offerings. This freedom invites students to explore connections between fields, engage in co-curricular activities, and develop unique combinations of majors, minors, and certificates. Because of this, it is impossible to provide you with a “one-size-fits-all” schedule. Nevertheless, if used wisely, it can provide you with an excellent starting point for your own, individualized academic plan.
- **You should meet regularly with ICS Department faculty advisors and A&S academic advisors for specific details on the various requirements.** Students must be active partners in the advising process. This responsibility includes researching curricular and co-curricular opportunities, creating educational plans, and discussing those plans with your advisors. You are strongly encouraged to meet with advisors on a yearly basis to confirm that you are still on track.
- **Additional information on CS major requirements that appear on the sample schedule:**
 - The Bachelor of Science (BS) degree offers a solid foundation in computer science and provides students the opportunity to focus in an area of concentration within the computer science field.
 - **Approved substitutions for the calculus, and physics requirements:**
 - MATH 241: Math 215, or Math 251
 - MATH 242: Math 216, or Math 252
 - PHYS 151/151L, or Phys 170/170L
 - PHYS 152/152L, or Phys 272/272L
 - **Junior/Senior Electives:**
 - ICS 400+ electives: five ICS (or approved) 400-level courses, including at most three credits of ICS 499 and six credits of ICS 491.

Major Requirements for BS in Computer Science

Admission: Open

Application: NA

Min. major credits: BS = 51

Min. B (not B-) grade in ICS 111, 141, 211 and 241; min. C grade (not C-) in all other courses

Requirements**ICS Core Courses (36 credits)**

- ICS 111 minimum "B"(not "B-") grade or higher to advance
- ICS 141*FS minimum "B"(not "B-") grade or higher to advance
- ICS 211 minimum "B"(not "B-") grade or higher to advance
- ICS 212
- ICS 241*FS minimum "B"(not "B-") grade or higher to advance
- ICS 311
- ICS 314
- ICS 321
- ICS 332

Two of:

- ICS 312 or ICS 331
- ICS 313 or ICS 361
- ICS 351 or ICS 451
- ICS 355 (prereq ICS 222)

 BS only (15 credits)

- ICS 400+
- ICS 400+
- ICS 400+
- ICS 400+
- ICS 400+

Sample Schedule: ~~General~~ B.A. in Information & Computer Sciences

(for students on the 2017-2018 Arts & Sciences College Program Requirements and are declared ICS majors)

*General
Track*

Attached is a sample schedule for a student seeking a Bachelor of Arts (B.A.) in Information & Computer Sciences. Please note the following important points:

- **This schedule is only a starting point.** The sample schedule was created to assist you when meeting with your advisor(s) to plan coursework, and does not include all the coursework required for a degree as you are able to "double-dip" some of your requirements. It is more a "point of departure" than a "road map," and should not be considered a substitute for meeting with your advisor(s) and devising a 4 year plan that matches your interests and goals. You may also attend summer session as a means of getting ahead or completing the coursework shown in the schedule.
- **The sample schedule is only a planning aid. It does not include all the requirements for a degree.** UHM students have an exceptional amount of freedom in crafting their own college experience, choosing from breadth of academic fields, and fulfilling degree requirements using a wide range of course offerings. This freedom invites students to explore connections between fields, engage in co-curricular activities, and develop unique combinations of majors, minors/certificates and their coursework in general. Because of this, it is impossible to provide you with a "one-size-fits-all" schedule. Nevertheless, if used wisely, it can provide you with an excellent starting point for your own, individualized academic plan.
- **You should meet regularly with ICS Department faculty advisors and A&S academic advisors for specific details on the various requirements.** Students must be active partners in the advising process. This responsibility includes researching curricular and co-curricular opportunities, creating educational plans, and discussing those plans with your advisors. You are strongly encouraged to meet with advisors on a yearly basis to confirm that you are still on track.
- **Additional information on ICS major requirements that appear on the sample schedule:** The intent of the Bachelor of Arts degree is to allow computer science to be combined with another discipline. Students seeking a BA should write a short (one page or less) proposal specifying the seven courses they will use for their ICS and area concentration electives. The proposal should explain how these courses form a coherent plan of study combining computer science with another field. This course proposal must be approved by an ICS undergraduate advisor and can be modified later with written approval to account for availability of courses or changes in the student's interests (which may require a new proposal and rationale).
- **Junior/Senior Electives:**
 - ICS 400+ electives: complete three ICS (or approved) 400-level courses, including at most three credits of ICS 499 and three credits of ICS 491.
 - Area concentration electives: complete four upper division (300-level or above) courses in some area of concentration (e.g., art, business, music, education).
 - All seven electives must be approved by an ICS advisor.

General Track

Major Requirements for General BA in Information and Computer Sciences

Admission: Open

Application: NA

Min. major credits: BA = 51

Min. B (not B-) grade in ICS 111, 141, 211 and 241; min. C grade (not C-) in all other courses

Requirements

ICS Core Courses (36 credits)

- ICS 111 minimum "B"(not "B-") grade or higher to advance
- ICS 141*FS minimum "B"(not "B-") grade or higher to advance
- ICS 211 minimum "B"(not "B-") grade or higher to advance
- ICS 212
- ICS 241*FS minimum "B"(not "B-") grade or higher to advance
- ICS 311
- ICS 314
- ICS 321
- ICS 332

Two of:

- ICS 312 or ICS 331
- ICS 313 or ICS 361
- ICS 351 or ICS 451
- ICS 355 (prereq ICS 222)

General BA only (3 credits)

- ICS 400+

Four upper-division electives in an ^{A C}area of concentration (12 credits):

- 300+
- 300+
- 300+
- 300+

A proposal identifying upper-division elective courses and how they form a coherent plan of study must be approved by an ICS advisor.

University of Hawai'i at Mānoa – Four-Year Academic Plan 2017-2018
General Bachelor of Arts (BA) in Information and Computer Sciences

This is a sample academic plan. You should meet with an academic advisor prior to registration to formulate your own plan.

Year 1		Year 2		Year 3		Year 4	
Fall		Fall		Fall		Fall	
ICS 111	4	ICS 311	④	ICS 312/331, 313/361, 351/451, or 355	③	ICS 312/331, 313/361, 351/451, or 355	③
ICS 141 (FS)	3	ICS 314	③	HSL 202 201	3	Elective 300+ (AOC)*	③
FW	3	HSL 102 101	3	Elective 300+ (AOC)*	③	Elective 300+	3
FG (A/B/C)	3	DS	3	Elective 300+	3	Elective 300+	③
DA/DH/DL	3	Elective	3	Elective Elective	3	Elective 300+	②
Credits	16	Credits	16	Credits	15	Credits	14
Spring		Spring		Spring		Spring	
ICS 211	4	ICS 212	3	ICS 332	③	ICS 400+	③
ICS 241	3	ICS 321	③	DB	3	Elective 300+ (AOC)*	③
FG (A/B/C)	3	HSL 201 102	3	Elective 300+ (AOC)*	③	Elective 300+	③
HSL 101 Elective	3	DS	3	Elective 300+	③	DP	3
DA/DH/DL	3	Elective	3	Elective <u>HSL 202</u>	3	DY	1
Credits	16	Credits	15	Credits	15	Credits	13
Summer		Summer		Summer		Summer	
Credits	0	Credits	0	Credits	0	Credits	0
Total Credits	32	Total Credits	63	Total Credits	93	Total Credits	120

Notes:

- Students need to have a degree proposal approved by an ICS advisor prior to declaring ICS.
- Students must incorporate all focus requirements into this plan.
- 45 upper division (300+ level) credits are required.

(AOC)* = Four upper division (300+) electives in an area of concentration in your approved proposal.

Sample Schedule: B.A. in Information & Computer Sciences Security Sciences Track

(for students on the 2017-2018 Arts & Sciences College Program Requirements and are declared ICS majors)

Attached is a sample schedule for a student seeking a Bachelor of Arts (B.A.) in Information & Computer Sciences. Please note the following important points:

- **This schedule is only a starting point.** The sample schedule was created to assist you when meeting with your advisor(s) to plan coursework, and does not include all the coursework required for a degree as you are able to “double-dip” some of your requirements. It is more a “point of departure” than a “road map,” and should not be considered a substitute for meeting with your advisor(s) and devising a 4 year plan that matches your interests and goals. You may also attend summer session as a means of getting ahead or completing the coursework shown in the schedule.
- **The sample schedule is only a planning aid. It does not include all the requirements for a degree.** UHM students have an exceptional amount of freedom in crafting their own college experience, choosing from breadth of academic fields, and fulfilling degree requirements using a wide range of course offerings. This freedom invites students to explore connections between fields, engage in co-curricular activities, and develop unique combinations of majors, minors/certificates and their coursework in general. Because of this, it is impossible to provide you with a “one-size-fits-all” schedule. Nevertheless, if used wisely, it can provide you with an excellent starting point for your own, individualized academic plan.
- **You should meet regularly with ICS Department faculty advisors and A&S academic advisors for specific details on the various requirements.** Students must be active partners in the advising process. This responsibility includes researching curricular and co-curricular opportunities, creating educational plans, and discussing those plans with your advisors. You are strongly encouraged to meet with advisors on a yearly basis to confirm that you are still on track.
- **Additional information on ICS major requirements that appear on the sample schedule:** The intent of the Bachelor of Arts degree is to allow computer science to be combined with another discipline. Students seeking a BA should write a short (one page or less) proposal specifying the seven courses they will use for their ICS and area concentration electives. The proposal should explain how these courses form a coherent plan of study combining computer science with another field. This course proposal must be approved by an ICS undergraduate advisor and can be modified later with written approval to account for availability of courses or changes in the student's interests (which may require a new proposal and rationale).
- **Junior/Senior Electives:**
 - ICS 400+ electives: complete three ICS (or approved) 400-level courses, including at most three credits of ICS 499 and three credits of ICS 491.
 - Area concentration electives: complete four upper division (300-level or above) courses in some area of concentration (e.g., art, business, music, education).
 - All seven electives must be approved by an ICS advisor.

Major Requirements for BA in Information and Computer Sciences / Security Science Track

Admission: Open

Application: NA

Min. major credits: BA = ~~51~~ 48

Min. B (not B-) grade in ICS 111, 141, 211 and 241; min. C grade (not C-) in all other courses

Requirements**ICS Core Courses (36 credits)**

- ICS 111 minimum "B"(not "B-") grade or higher to advance
- ICS 141*FS minimum "B"(not "B-") grade or higher to advance
- ICS 211 minimum "B"(not "B-") grade or higher to advance
- ICS 212 or ICS 215
- ICS 241*FS minimum "B"(not "B-") grade or higher to advance
- ICS 311
- ICS 314
- ICS 321
- ICS 332

The following two:

- ICS 351 or ICS 451
- ICS 355 (prereq ICS 222)

~~BA Security Science Track only (12 credits)~~

- ~~ICS 423, ICS 425, ICS 426, ICS 455, or ICS 495, EE 406~~
- ~~ICS 423, ICS 425, ICS 426, ICS 455, or ICS 495, EE 406~~
- ~~ICS 423, ICS 425, ICS 426, ICS 455, or ICS 495, EE 406~~
- ~~ICS 423, ICS 425, ICS 426, ICS 455, or ICS 495, EE 406~~

MEMORANDUM

To: Michael Bruno, Interim Vice Chancellor for Academic Affairs

Via: Aloysius Helminck, Dean, College of Natural Sciences

From: David N. Chin, Chair, ICS

Re: Undergraduate Program Modification for the BS in Computer Science and the BA in Information & Computer Sciences

The faculty of the Department of Information and Computer Sciences (ICS) is pleased to inform you about changes to the BA in Information & Computer Sciences and the BS in Computer Science degree programs **effective starting in the Spring 2018** semester:

1. For both the BA in Information & Computer Sciences program and the BS in Computer Science program, the required courses are changed from 111, 141, 211, 212, 241, 311, 314, 321, 332, **(312 or 331), (313 or 361)** to 111, 141, 211, 212, 241, 311, 314, 321, 332 **and two of 355, (351 or 451), (312 or 331), (313 or 361)**.
2. For both the BA in Information & Computer Sciences program and the BS in Computer Science program (and also the BS in Computer Engineering program), a Security Science (SecSci) Certificate is proposed (see separate document).

The change in the required courses adds the option of ICS 355 “Security and Trust I: Resource Protections” and a group consisting of ICS 351 “Network Design and Management” or ICS 451 “Data Networks”. Cybersecurity in our increasingly networked world is growing in importance in all areas of society with significant implications for workforce development. The rationale for this change is, first and foremost, to emphasize the importance of cybersecurity in the undergraduate computer science curriculum, and, secondly, to enable a tighter integration between the requirements for the SecSci certificate and the requirements of the BA & BS programs. Specifically, ICS 355 and (ICS 351 or ICS 451) are prerequisites to the courses required by the SecSci certificate and with the proposed changes, those prerequisite courses can be used to satisfy the BA & BS requirements as well.

No additional instructional resources are tied to this change, because ICS 355, 351, and 451 are not new courses: these courses are currently being offered by the department on a regular basis.

The modified UHM catalog entry (with additions in red ink and deletions in red strike-through) is shown below:

Marked-Up Catalog Entry

Bachelor's Degree

To be admitted into the program, first-year students entering UH Manoa directly from high school must first be admitted into the Colleges of Arts and Sciences. For continuing students, a cumulative GPA of at least 2.0 is required for admission.

BA in Information and Computer Sciences

Requirements

Students pursuing this degree are required to submit a short proposal listing the courses they intend to take to complete their ICS major. An ICS faculty advisor must approve this proposal in writing. Samples of course proposals are available at the ICS department office. Students must complete the following courses (52 credits):

- ICS 111, 141, 211, 212, 241, 311, ~~312 or 331, 313 or 361~~, 314, 321, ~~and 332~~, and two of 355, (351 or 451), (312 or 331), (313 or 361).
- One ICS courses at the 400-level or above,
- Four upper division (300-level or above) courses in some area of concentration. The area of concentration courses do NOT have to be from the same department and can include ICS courses.

For information on a Bachelor Degree Program Sheet, go to www.manoa.hawaii.edu/ovcaa/programsheets/.

BS in Computer Science

Requirements

Students must complete the following courses (52 credits):

- ICS 111, 141, 211, 212, 241, 311, ~~312 or 331, 313 or 361~~, 314, 321, ~~and 332~~, and two of 355, (351 or 451), (312 or 331), (313 or 361).
- At least five ICS or other approved courses at the 400 level or above

Substitutions are permitted with the written approval of an ICS faculty advisor.

Waiver of certain requirements, such as by Advanced Placement CS Exam, must be approved by the ICS faculty advisor.

For information on a Bachelor Degree Program Sheet, go to www.manoa.hawaii.edu/ovcaa/programsheets/.

Focus Areas

In both the BA and BS, Focus Areas allow students to customize their study paths to suit their personal career goals and interests. Currently supported Focus Areas include:

- Security Science (SecSci) BA or BS

As everyday life increasingly relies on network computation and information, security has become a central problem for ICS. The tasks of protecting security and privacy offer a growing range of employment and business opportunities for ICS graduates— this Focus Area opens up career paths towards this expanding and exciting area. Although computation begins with programming, modern applications often involve physical and social interactions that cannot be programmed or engineered. The processes of security, privacy, and trust, as studied in SecSci, go beyond the engineering aspects of computation and into computer science as a genuine science.

- Information Technology (IT) BA only

The IT focus prepares students to work in practical areas such as system and network administration, where the most employment opportunities in Hawai'i seem to occur. Beyond the first year computer science courses, IT students take courses in scripting languages, algorithms, software engineering, data networks, databases, computer security, and human-computer interaction. These courses prepare students to develop and manage computer applications in a broad range of environments including small businesses, large enterprises, IT consulting firms, and local and federal government.

The following UHM catalog entry will be added if the Security Science Certificate is approved:

Security Science (SecSci) Certificate (BA or BS)

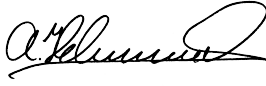

As everyday life increasingly relies on network computation and information, security has become a central problem for ICS. The tasks of protecting security and privacy offer a growing range of employment and business opportunities for ICS graduates— this certificate opens up career paths towards this expanding and exciting area. Although computation begins with programming, modern applications often involve physical and social interactions that cannot be programmed or engineered. The processes of security, privacy, and trust, as studied in SecSci, go beyond the engineering aspects of computation and into computer science as a genuine science.

February 20, 2021

MEMORANDUM

TO: Laura E. Lyons
Associate Vice Chancellor for Academic Affairs

VIA: Aloysius Helminck,
Dean, College of Natural Sciences 

FROM: Scott Robertson 
Chair, Department of Information & Computer Sciences

SUBJECT: APPROVAL OF STOP-OUT ON THE INFORMATION TECHNOLOGY (IT)
TRACK/CONCENTRATION IN THE BA ICS DEGREE

SPECIFIC ACTION REQUESTED:

It is requested that the Associate Vice Chancellor for Academic Affairs approve the stop-out on the Information Technology (IT) track in the Bachelor of Arts in Information and Computer Sciences (BA ICS) degree program.

REQUESTED EFFECTIVE TERM: Fall 2021

ADDITIONAL COST: None

RATIONALE/PURPOSE OF PROPOSED CHANGE(S):

The BA ICS IT track is not a popular track for students in the BA program and IT is no longer a priority in our BA program. For those reasons, we would like to put a stop out on the IT track in the BA ICS degree. We will terminate the track after the three remaining students currently enrolled in the program graduate or are no longer enrolled.

Stop-out of the IT track in the BA ICS degree should be notated in all relevant catalog entries and the program sheets.

ACTION RECOMMENDED:

It is recommended that the Associate Vice Chancellor for Academic Affairs approve the stop-out on the IT track in the BA ICS degree program.

APPROVED/DISAPPROVED:

 Laura E. Lyons
 Associate Vice Chancellor for Academic Affairs

3/15/21

 Date
