SUBJECT: CIP CODE CHANGE FOR INTERCOLLEGE PHD PROGRAM IN NUTRITION

SPECIFIC ACTION REQUESTED:

It is requested that the Classification of Instructional Programs (CIP) code for the Intercollege PhD Program in Nutrition be changed from 19.0504 to a code with the same CIP code description as 30.1901.

RECOMMENDED EFFECTIVE DATE:

It is requested that the change be effective retrospectively for August 20, 2018 (Fall 2018) for certain graduates that need this code, indicating a STEM degree.

ADDITIONAL COST:

There are no additional costs.

PURPOSE:

The CIP code change will allow the Intercollege PhD Program in Nutrition to revise its classification from Human Nutrition to a broader Nutritional sciences classification that encompasses the range of the field covered by the program. The revised code is needed to acknowledge the science basis of the degree,

David Lassner

as a STEM code, and allow program graduates to apply for and obtain (OPT) employment appropriate to their field of study, upon graduation in December 2018.

BACKGROUND:

The Intercollege PhD Program in Nutrition is currently housed in the College of Tropical Agriculture and Human Resources, Human Nutrition, Food and Animal Sciences Department with participating faculty members in all three departmental program areas. Faculty also participate from the John A. Burns School of Medicine, University of Hawai'i Cancer Center, the School of Nursing and Dental Hygiene, Office of Public Health Studies in the School of Social Work, the College of Education, the College of Social Sciences and from CTAHR's Department of Molecular Biosciences and Bioengineering.

The major name and program length will remain the same and the graduation requirements will be unchanged. Appropriate changes will be made in Banner to ensure Financial Aid compliance. Graduate Division will be advised of the changes to ensure that their processes will not be adversely impacted.

Students who graduated from the program between the semester of the program's inception in Fall 2007 to Summer 2018 will retain the original CIP code classification. Students graduating in and after Fall 2018 will be classified with the new CIP code. Affected students will be re-coded to reflect the new CIP code.

ACTION RECOMMENDED:

It is recommended that the Classification of Instructional Programs (CIP) code for the Intercollege PhD Program in Nutrition be changed from 19.0504 to a code with the same CIP code description as 30.1901.
