Type of credential
Degree: AA AS AAS
 Other, specify: _____

Existing credential: Title: Medical Office Specialty
Proposed credential: Title: Medical Assistant II
Credits: 62
Credits: 64-69

If modification, describe change:
 Change in credential name
 Change in course requirement(s); specify: Change the requirement for "BUSN 193v (3)" to "BUSN 193v (1-3)."
 Delete the requirement for "BUSN 110 or 261 (3)."
 Change in prerequisite(s) for credential; specify: _____
 Other; specify: The phrase "Required courses completed through credit by examination with a CR grade may also be used toward Business Technology certificates and degrees." was added. This change provides students with the opportunity to use Credit By Exam which is graded on a CR/NC basis to satisfy certain program requirements.
 Program map must be attached. (For modifications, write changes on copy of current catalog map.)

6. Reason for this curriculum action:
The purpose of this curriculum action is to combine the Medical Office Specialty and Health Unit Coordinator Specialty into one AAS degree, Medical Assistant II. The new AAS prepares students to work in either an in-patient or out-patient environment, and provides a wider range of occupational choices than either of the previous degrees. At the same time, the new AAS requires 2 to 4 fewer credits to complete than the two separate degrees. This reduction should help reduce the average time it takes to complete the AAS since three-fourths of our graduates over the past 8 years have chosen to complete both Medical Office Specialty and Health Unit Coordinator.
The number of credits for BUSN 193v has been reduced from 3 to 2 to provide a work experience component that is adequate for the AAS degree. An additional 2 credits of BUSN 193v is also offered as an option for students who plan to work at Kaiser Permanente which requires an additional practicum prior to employment.
The deletion of the requirement for "BUSN 110 or 261 (3)" removes a Business Technology elective that was included in the Medical Office Specialty but not in the Health Unit Coordinator AAS. This elective was not considered to be essential for the Medical Assistant II AAS.

The new requirement "NURS 16 (6)" was not previously included in the Medical Office Specialty but was included in the Health Unit Coordinator AAS. This class is an essential requirement for the new Medical Assistant II AAS.

7. Proposed term of first offering: Fall semester of 2010 year.

**UNIVERSITY OF HAWAII
ACADEMIC PROGRAM ACTIONS REPORT, 2009-20010**

INTRODUCTION

University of Hawaii Board of Regents and executive policies provide for the establishment and review of academic programs at all campuses of the University of Hawaii System. This report provides information regarding academic program actions during the 2009-2010 AY at UH Manoa, UH Hilo, UH West Oahu, and the UH Community Colleges. Act 161 (HRS §304-4.5) calls for the periodic review of programs at each campus to determine whether the programs are operating for the purposes originally established and are consistent with the benchmarks adopted by the Board of Regents.

University policy governing academic program approval and review is set forth in four documents.

1. Board of Regents' Bylaws and Policies Section 5-1.a (1), (2), (3), relating to New Programs and Established Programs.
2. Executive Policy E5.201, Approval of New Academic Programs and Review of Provisional Academic Programs.
3. Executive Policy E5.202, Review of Established Programs.
4. Executive Policy E5.205, Academic Minors and Certificate Credentials.

Highlights of University policy provisions relating to academic program are as follows:

- New programs are authorized by the Board of Regents and become provisional upon approval.
- A provisional program is reviewed for continuation as an established program after its first cycle. Program continuation involves BOR action. The provisional cycle is the number of years it takes a student to complete the program, but not less than two years. In the year following the provisional cycle, a review is conducted.
- Established programs are reviewed at least once every five years (comprehensive review) at the UH Community Colleges and on a five- to seven-year cycle at UH Hilo, UH Manoa, and UH West Oahu.
- Termination of provisional and established programs approved by the Board of Regents requires Board of Regents action.
- The President may approve changes to academic program titles to maintain currency in terminology assuming no substantive change in the program or service group.

- Chancellors are authorized to approve program stop-outs—a halt to admissions to the program—for not more than two years.
 - Chancellors at baccalaureate degree campuses are authorized to recognize and approve changes to academic minors in Board-authorized baccalaureate degree programs.
 - Chancellors are authorized to approve certificates of completion at the Community Colleges and subject certificates at all campuses that recognize work taken within (or among) existing Board authorized academic programs.
- A summary of Board of Regents and University actions relating to new, provisional, and established programs including a summary of the program reviews for 2009-2010 are listed below. A list of abbreviations is provided as Attachment 1, and the URL web link to the University's official *Master List of Curricula Offered, Fall 2009*, is located in Attachment 2.

A review team composed of external evaluators considers the self-study reports of the departments and the executive summary of the dean, reviews the academic programs with regard to conformance with the disciplines and academic rigor, examines the annual

Program review at UH Mānoa reveals strengths and challenges, and ensures program effectiveness with respect to the discipline, university policy, and external accreditation standards. In order to evaluate each program within its context, UH Mānoa now reviews all academic programs in a college concurrently, taking into consideration the overarching administrative and support structure of the college.

UH Mānoa's academic program review process includes a self-review conducted by the academic department housing the program, as well as an executive summary from the dean of the college. These self studies follow established guidelines set forth by Executive Policies E5.201: "Approval of New Academic Programs and Review of Provisional Academic Programs," and E5.202: "Review of Established Programs."

Procedures for Program Review

B. UH Mānoa

Each Unit of the University has developed its own program review procedures appropriate to its programs and organization. These are described at the beginning of each of the following sections of this report.

The overall purpose of program review is to assess the extent to which academic programs are meeting their stated objectives and whether these objectives are still appropriate to the campus and University missions.

This section of the report provides a summary of the reviews of established programs at the UH Mānoa, UH Hilo, UH West O'ahu, and UH Community Colleges in fulfillment of BOR policy and in partial fulfillment of the requirements of Act 161. Reviews conducted in other areas, such as student services, research, etc., are handled separately.

The review team presents its findings to the Chancellor, Vice Chancellor for Academic Affairs, Dean of the Graduate Division, dean of the college, and department chairs, faculty, and staff of the units reviewed. An exit interview is held with the dean, the chair(s), the Dean of the Graduate Division, and the Vice Chancellor for Academic Affairs to discuss the recommendations and to develop a plan of implementation. These reviews and recommendations form the basis for administrative decisions affecting the program and the college. One year after the review, the dean and department chairs report to the Vice Chancellor for Academic Affairs on progress made in implementing the recommendations.

Procedures for Program Review

C. UH Hilo

The program review process at UH Hilo begins with a self study conducted by department faculty with input from an external reviewer selected jointly by the department and the VCAA.

The report generated by the self study conforms to the guidelines set forth in Executive Policies E5.201, Approval of New Academic Programs and Review of Academic Provisional Programs, and E5.202, Review of Established Programs, with special emphasis on student learning assessment and on planning for program improvement.

The Dean or Director of the unit reviews the report, consults with the department chair, and recommends actions that will support program improvement. Recommendations and reports are reviewed by the UH Hilo Congress and department faculty participate in the Congress's deliberations. The Congress recommends actions to the VCAA, who decides on recommendations, sends each department a memorandum of understanding, and prepares the annual summary report to the System. Department faculty may consult with the VCAA during this process.

Recommended actions are integrated into UH Hilo planning and resource allocations. Departments are notified of progress in implementation; in turn, departments submit annual progress reports to the Dean and VCAA.

D. UH West O'ahu

Background

UHWO has taken steps in the past year to transform itself from a small liberal arts and professional studies campus into a regional comprehensive university for the state of Hawai'i. It has sought Authorization to Plan for several new programs that address the critical issues of providing state workforce development and increasing educational access/opportunity for underrepresented students statewide. Several other initiatives are in the early planning stages and will be brought to the Board in the upcoming years.

Program Review Objectives

The academic programs at UHWO have developed over the years as an educational alternative to other UH baccalaureate campuses. The emphasis has been on a strong interdisciplinary educational experience through pursuit of study in a broad area of concentration such as the Humanities, Social Sciences, or Professional Studies rather than limiting program emphasis to a single discipline. Within this area of concentration context, students are also required to develop competencies in multiple related academic areas of study.

The program review process focuses on:

- Review and revision of program and specialization learning objectives.
- Defining expected student earning outcomes upon graduation.
- Collection and analysis of data as prescribed in Executive Policies E5.201, Approval of New Academic Programs and Review of Provisional Academic Programs, and E5.202, Review of Established Programs
- Reaffirmation and/or modification of curricula and courses offered to assure cohesiveness of program offerings in line with expected learning outcomes.

Procedures for Program Review

Academic programs at UHWO are reviewed on a seven-year cycle. The Vice Chancellor for Academic Affairs' office maintains the seven-year schedule. Procedures cover the following components of program reviews:

- Purpose
- Goals
- Contents
- Process for preparing internal reports
- Process for conducting external evaluations
- Process for drafting Memorandum of Understanding
- Explanation and description of program review cycles and Handbook for conducting program reviews.

Review of each academic program occurs over the period of one academic year. During the first semester of each review, data are collected, and an internal report is written and submitted to the appropriate program unit for revision and approval. At the same time, names of external evaluators are selected. During the second semester, an external evaluator responds to the internal report, visits the campus, and drafts a report. The final step in the procedure is the preparation of a Memorandum of Understanding that lists actions to be undertaken as a result of the review.

A detailed template for conducting program reviews, calls for analysis, summary, and recommendations for action on the following major program components:

- Curriculum
- Faculty
- Students
- Resources
- College-wide Learning Objectives and Divisional and Specialization Learning Outcomes

A major emphasis in the program reviews is placed on UH West O'ahu's institutional, divisional, and concentration objectives.

Procedures for Program Review

UHCCP 5.202, the UHCC program review policy, includes provisions for comprehensive, multi-year program reviews as required by ACCJC, and an Annual Instructional Assessment to meet the reporting requirements of the Carl D. Perkins Vocational and Applied Technology Education Act. The Annual Instructional Assessment is used to make campus and UHCC system resource plans and provide data in support of the University's Academic Program Action Status report. The process includes common system definitions and languages; common core elements (demand, efficiency, outcome) which may be supplemented by individual colleges/programs, selected system-based benchmarks, tools that reflect the measures and make data retrieval easy, and continuous quality improvement applied to measures and outcomes.

The following college program action status reports were completed under the new UHCC policy:
