

**STATUS OF CURRENT STUDENTS AND TERMINATION OF OLD PROGRAM CODE**

Are current students "grandfathered" under the program code?  Yes  No

Should the old program code be available for use in Banner?  Yes  No

Effective Fall 2022, old program code will no longer be available to admit or recruit students.  
Term (ie. Fall 2014)

*This will turn off the online application, recruitment (effects Banner forms SRASUMI and SRAQUIK) and admissions (effects Banner forms SAADCRV, SAAADMS, SAASUMI, SAAQUIK, and SAAQUAN) Banner modules.*

Effective Spring 2025, old program code will no longer be available to award degree to students.  
Term (ie. Fall 2014)

*This will turn off the general student (effects Banner form SGASTDN) and academic history (effects Banner form SHADEGR) Banner modules.*

<sup>1</sup> Program codes can only be used for one college at a campus. For example, if college A at Hilo is using program code BA-BIOL, then college B at Hilo will not be able to use that program code. College B will then modify the code by adding the college to the end of the code, ie BA-BIOL(B) or BA-BIOL/B. This will also hold true when a program is being moved from one college to another. Program codes used at one campus, can be used at another campus only if it is the same program.

**Catalog Description**

The Fashion Technology program provides comprehensive training in apparel production and fashion design required by entrepreneurs and businesses in the fashion industry. The program develops technical skills required for job entry, retraining for the garment industry, and upgrading of sewing and pattern making skills for those already employed in the field.

Laboratory activities promote the development of skills in designing, pattern drafting, and construction of basic and advanced apparel. The use of industry equipment and sewing techniques are demonstrated in group instruction. When special techniques and problems are encountered, students are given specialized instruction.

**Catalog Description**

The Fashion Technology program provides comprehensive training in apparel production and fashion design required by entrepreneurs and businesses in the fashion industry. The program develops technical skills required for job entry, retraining for the garment industry, and upgrading of sewing and pattern making skills for those already employed in the field.

Laboratory activities promote the development of skills in designing, pattern drafting, and construction of basic and advanced apparel. The use of industry equipment and sewing techniques are demonstrated in group instruction. When special techniques and problems are encountered, students are given specialized instruction.

Contact the program coordinator, Cheryl Maeda, at 984-3292 or by email at [maedache@hawaii.edu](mailto:maedache@hawaii.edu) for more information.
