8. **Reason for this Program Action:**

The Cisco Network Administrator Certificate of Achievement (CA) has been changed to Network Administrator and Security CA. As part of the Cyber Security program associated with the TAACCCT-IV grant (2014-2018), the grant team recommended this name change to better identify the purpose of the CA. In addition, the name change will represent the student to potential employers more effectively.

The proposed Network Security Specialist Certificate of Competence (CO) was proposed as part of the TAACCCT-IV grant that was approved for the 2014-15 year. The grant is directed at enhancing the much needed Cyber Security opportunities at Kaua'i Community College. The purpose of this CO is to provide the knowledge and skills to prepare students for an entry level Network Security position. This CO is a subset of the Network Administrator and Security CA for students who are upgrading their skill set in cyber security or just enhancing their résumé for an entry level position. The goal of this CO is to encourage students to continue on to the CA, and eventually to the AS in Electronics Technology.
