Hi Della and Grant,

I would like to say YES, but we are in the process of making the change this year (sorry, we are late to the party). Can we still be in or should I still do my paperwork once our change goes through?

Hi Grant,

I believe we changed BPRT to IEDB, IEDD and IEDC last year but I don't think any subject code change paperwork was done for that. Can you please check on your end and let me know if you need anything from me for that one?

Thanks!

Hi there.

I'm forwarding an email from Grant Kim requesting the remaining campuses (you folks) change the GG alpha code to EARTH. If you approve, can you respond with an affirmation to this email? Grant will handle the documentation on his end; no forms required! I would also ask you to copy your registrar and FAO if you approve the change.

Thank you!!

Della

Hi Della,

There has been a systemwide Subject Code Change from Geology & Geophysics (GG) to Earth Sciences (ERTH) effective 2019/2020. Kauai CC's, Leeward CC's and Windward CC's requests have already been processed (attached).

Rather than having each individual campus submit similar requests, could you send (or forward this email) to the chancellors at Honolulu CC, Kapiolani CC and Hawaii CC to approve the request to change their Geology & Geophysics (GG) Subject Code to Earth Sciences (ERTH), and have them copy their VCAA, registrar and FAO. I believe Maui College does not offer GG/ERTH courses, but if they plan to, you may add them to the list. The forwarded email will serve as the required documentation.

Thanks,

Grant
