UNIVERSITY of HAWAII  
**KAPĪ'OLANI** RECEIVED  
COMMUNITY COLLEGE

'12 FEB 21 A9:03  
February 10, 2012

UNIVERSITY OF HAWAII  
PRESIDENT'S OFFICE  
**MEMORANDUM**

**TO:** MRC Greenwood  
President, University of Hawai'i

**VIA:** John Morton  
Vice President, University of Hawai'i Community Colleges

**FROM:** Leon Richards  
Chancellor

**SUBJECT:** Changes in the Names of Two Associate in Science Degrees and  
Four Related Certificates at Kapi'olani Community College:

**SPECIFIC ACTION REQUESTED:**

It is requested that the President approve the following changes in the names of two associate degrees and four certificates at Kapi'olani Community College:

- (1) From Associate in Science in Hotel and Restaurant Operations to Associate in Science in Hospitality and Tourism with a concentration in Hospitality Operations Management
- (2) From Associate in Science in Travel and Tourism to Associate in Science in Hospitality and Tourism with a concentration in Travel and Tourism Operations Management
- (3) From (a) Certificate of Achievement in Hotel and Restaurant Operations to Certificate of Achievement in Hospitality Operations Management and (b) Certificate of Achievement in Travel and Tourism to Certificate of Achievement in Travel and Tourism Operations Management
- (4) From (a) Certificate of Completion in Hotel Operations to Certificate of Completion in Hospitality Operations and (b) Certificate of Completion in Travel and Tourism to Certificate of Completion in Travel and Tourism Operations

RECOMMENDED EFFECTIVE DATE:

Upon approval.

BACKGROUND:

Pursuant to Board of Regents Policy 5-1.g (1) "Naming of Programs," the President has the authority to approve "changes in the functional names of academic programs and credentials as may become necessary to remain current with the terminology and focus of their fields and involve no significant change in the program requirements."

Kapi`olani Community College proposes to change the names of two established degree programs and the four related certificates offered by the Hospitality Education department. Currently, the College offers two distinct Associate in Science degree programs: Associate in Science in Hotel and Restaurant Operations (63-64 credits) and Associate in Science in Travel and Tourism (65-67 credits). Each of the programs also includes a related certificate of achievement and certificate of completion. The degrees and certificates are housed in the Hospitality Education department, and the faculty in the department teach in both programs. The counselor advises and provides support for majors in both programs. The curriculum for the two degrees has always included 19 credits in shared courses, and students were encouraged to take as electives, courses required by the other major. The net result has been an integrated curriculum with students acquiring skills and knowledge in both areas of hospitality. This curricular integration, while promoting a coherence across programs, has also resulted in an integration of resources, making a distinct assessment of program efficiency and effectiveness particularly challenging when so much of the two programs' resources are shared.

To optimize this integration and to consolidate resources, the College is proposing to merge the two associate degree programs into a single associate degree program with two areas of concentration: Associate in Science in Hospitality and Tourism, with concentrations in Hospitality Operations Management and in Travel and Tourism Operations Management. The curriculum required for the two separate degrees has been reconfigured within the proposed single degree with two concentrations. None of the current courses or program requirements has been altered in this proposed change. The shared courses include General Education courses, support courses, and core program courses. The concentration courses are unique to each area (Hospitality

Operations Management and Travel/Tourism Operations Management), and electives are selected as they were before, with students in one area of concentration selecting courses from the other concentration. The courses included in the two concentration areas now form the basis for the related certificates. The details of the curriculum before and after the integration are included in the attached appendix.

ACTION RECOMMENDED:

It is recommended that the President approve the change in name from (1) Associate in Science in Hotel and Restaurant Operations to Associate in Science in Hospitality and Tourism with a concentration in Hospitality Operations Management and (2) Associate in Science in Travel and Tourism to Associate in Science in Hospitality and Tourism with a concentration in Travel and Tourism Operations Management, with concomitant changes in the names of the four related certificates of achievement and certificates of completion, at Kapi'olani Community College, to be effective upon approval.

### Current and Proposed Program and Certificate Descriptions, Outcomes and Curricula

#### CURRENT

##### Associate in Science, Hotel/Restaurant Operations

**Current Program Description:** The Associate in Science, Hotel/Restaurant Operations is a four-semester program of study. The program is designed to help students acquire both the knowledge and practical skills necessary to successfully qualify for work in various capacities in hotels and to transfer to a four-year program. It prepares students for employment in hotel and resort front office, concierge, reservations, housekeeping, sales, and uniformed services positions. The program also prepares students for transfer to a four-year travel industry management program.

**Current Student Learning Outcomes:** Upon successful completion of the A.S. degree program in Hotel/Restaurant Operations the student should be able to:

- Use knowledge and skills associated with problem solving, creative and critical thinking, reflection and decision making to function effectively in the classroom, community and industry.
- Apply the concepts and skills necessary to achieve guest satisfaction.
- Demonstrate leadership and teamwork to achieve common goals.
- Conduct him/herself in a professional and ethical manner, and practice industry defined work ethics.
- Communicate effectively and confidently in the classroom, community and industry.
- Demonstrate knowledge of multicultural perspectives to meet the needs of the guests and employees.
- Lead with the knowledge that the foundation of tourism is based on the respect for the host culture with the responsibility to perpetuate the unique values, traditions, and practices of that place.
- Use knowledge of best practices to further sustainability (economic, environmental, and cultural/social) in the industry.
- Demonstrate ability to perform basic and supervisory level job functions in hotel/restaurant careers

### **CERTIFICATE OF COMPLETION: HOTEL OPERATIONS (15 SEMESTER CREDITS)**

**Current Program Description:** The Certificate of Completion in Hotel Operations is a one-semester program of study. Through this program, students will exit with the job skills necessary to qualify for entry-level positions in hotel housekeeping/laundry departments, food and beverage operations, and in front office and uniformed services departments. Development of housekeeping and front office technical skills, an understanding of food and beverage operations, as well as

development of guest relations techniques, service attitudes, and professionalism is stressed. The program is recommended for students who plan to seek immediate employment as hotel and/or restaurant reservationists, housekeepers, laundry workers, hotel front desk clerks, telephone operators, and uniformed services personnel.

**Current Program Student Learning Outcomes:** Upon successful completion of the Certificate of Completion in Hotel Operations, the student should be able to:

- Apply the concepts and skills necessary to achieve guest satisfaction.
- Conduct him/herself in a professional and ethical manner, and practice industry defined work ethics.
- Demonstrate ability to perform basic and supervisory level job functions in hotel/restaurant careers.

## **CURRENT**

### **Associate in Science, Travel and Tourism**

**Current Program Description** The Associate in Science, Travel and Tourism, is a four-semester program of study. This competency based program prepares students for employment in a variety of positions available in the large scope of the travel and tourism industry and to transfer to four-year programs. Students entering the workforce will find opportunities in airline operations, ticketing and reservations, travel agencies, tourism planning and development, meeting and convention coordination, special events and tour itinerary planning. In addition to the specialized Travel and Tourism courses, this program combines general education classes along with a complete hospitality core to provide students with a comprehensive program of study.

**Current Student Learning Outcomes:** Upon successful completion of the A.S. degree program in Travel and Tourism, the student will be able to:

- Use knowledge and skills associated with problem solving, creative and critical thinking, reflection and decision making to function effectively in the classroom, community and industry.

- Apply the concepts and skills necessary to achieve guest satisfaction.
- Demonstrate leadership and teamwork to achieve common goals.
- Conduct him/herself in a professional and ethical manner, and practice industry defined work ethics.
- Communicate effectively and confidently in the classroom, community and industry.
- Demonstrate knowledge of multicultural perspectives to meet the needs of the guests and employees.
