Notice of Meeting

UNIVERSITY OF HAWAI'I

BOARD OF REGENTS' COMMITTEE ON ACADEMIC AFFAIRS

Date: Wednesday, April 30, 2014

Time: 9:00 a.m.

Place: University of Hawai'i
2444 Dole Street
Bachman 113
Honolulu, HI 96822

AGENDA

- I. Call Meeting to Order**
- II. Approval of Minutes of March 5, 2014 Meeting**
- III. Public Comment Period:** *Individuals may testify on items on this agenda during the Public Comment Period. Individuals providing oral testimony will be requested to sign up at the meeting. Written testimony is also accepted 24 hours in advance of the meeting time, via email at bor@hawaii.edu, or hand-delivery or mail to the address above. Individuals testifying at the meeting are requested to limit their testimony to three (3) minutes.*
- IV. Agenda Items**
 1. Academic Program Actions
 - a. New Program Proposal: Provisional Associate of Science in Business, Kaua'i Community College
 - b. New Program Proposal: Provisional Certificate of Achievement in Medical Assisting, Kaua'i Community College
 - c. Established Status for the Bachelor of Education Degree with a Concentration in Elementary Education, UH West O'ahu
 - d. New Program Proposal: Provisional Associate of Science in Plant Biology and Tropical Agriculture, Kaua'i Community College and Leeward Community College
 2. Discussion on Distance Learning (information only)
 3. Proposed Revision to Chapter 9-11(c) Emeritus/Emerita Title
 4. Proposed Revision to Chapter 4-1(c) Mission and Purpose

V. Executive Session (Closed to the Public)

Personnel Actions Related to the Following (To discuss the following personnel matters pursuant to HRS §92-5(a)(2)):

1. Approve Establishment of an Endowed Visiting Chair in History in the College of Arts and Sciences, UH Hilo
2. Emeritus/Emerita Request

VI. Adjournment

University of Hawai'i—West O'ahu

8. Approval of Established Status for the Bachelor of Education Degree with a Concentration in Elementary Education, UH West O'ahu

Vice Chancellor for Academic Affairs Linda Shimabukuro presented for approval changing the status of their Bachelor of Education Degree from provisional to established. The National Council for Accreditation of Teacher Education (NCATE) accredited the program last year and was given many commendations. There are close to 200 students who are majoring the Bachelor of Education, most of whom are now teaching in the West O'ahu region. The focus is to meet the needs of the Nānākuli, Waianae, and Kapolei area for highly qualified elementary, middle and secondary school teachers. Regent Gee said the Committee on Academic Affairs is recommending approval. He commended the results of the program over the past three years had been very positive and the graduates of this program are gainfully employed, well accepted in the community and retention is high. He noted that a survey done of students who went through the program was high in every single category with only one small exception of dealing with diversity in the classroom, which is not an easy issue to deal with. Regent Gee moved for approval of established status for the Bachelor of Education Degree with a Concentration in Elementary Education. The motion was seconded by Regent Moore and carried upon unanimous vote.

University of Hawai'i Community Colleges

9. Approval of New Program Proposal: Provisional Associate of Science in Business, Kaua'i Community College

10. Approval of New Program Proposal: Provisional Certificate of Achievement in Medical Assisting, Kaua'i Community College

11. Approval of New Program Proposal: Provisional Associate of Science in Plant Biology and Tropical Agriculture, Kaua'i Community College and Leeward Community College

VP Morton presented for approval of four new program proposals, three at Kaua'i Community College (KCC) and one at Leeward Community College (LCC). The provisional Associate of Science in Business at KCC would provide students with the opportunity to apply general business skills, including entrepreneurial skills to a variety of jobs on Kaua'i while preparing themselves to transfer to baccalaureate programs particularly at UHWO which offers the program on Kaua'i. The business community strongly supports the program and draws on courses already taught in applied science degrees at KCC.

The provisional Certificate of Achievement in Medical Assisting at KCC is an existing program at the lower level certificate seeking accreditation by adding a class in some of

the electronic records management, which is now required of medical assistants. Adding the class reclassifies the certificate to the Certificate of Achievement level for the one year program which requires board approval.

The two provisional Associate of Science Degrees in Plant Biology and Tropical Agriculture at KCC and LCC were jointly developed by faculty from the two programs and part of the overall effort to address some of the sustainable agriculture workforce needs in the state. The programs reflect the local agriculture communities in West O'ahu and Kaua'i, and are designed and articulated together to continue sharing between the faculty in the two programs.

Regent Gee said the Committee on Academic Affairs vetted all four of the requests and heartily recommend their approval. He noted that the Certificate of Achievement in Medical Assisting was built upon the Certificate of Completion and is particularly important since it is required to meet national certification for practice as medical assistants. The two degrees in plant biology and tropical agriculture are very important to improve food security in the state because we only provide for 10% to 15% of our own needs. These programs are important to the mission of the colleges, to our own state and communities needs, and have strong support from companies like DuPont. The committee also liked the program as a conjoined program because the two colleges came together and collaborated on the program and made sure the courses were in alignment in close cooperating with CTAHR. Regent Gee moved to approve the new program proposals for the Provisional Associate of Science in Business; the Provisional Certificate of Achievement in Medical Assisting; and the Provisional Associate of Science in Plant Biology and Tropical Agriculture at KCC and LCC. Regent Shigemoto seconded the motion and it carried upon unanimous vote.

IX. ITEMS FOR DISCUSSION (CONTINUED)

12. Report on the visits by finalists for UH President

Chair Holzman gave an update on the finalists visits, and the decision to not hire a search firm and instead utilize the services of the board office, communications staff, and HR staff. He noted and recognized the extraordinary undertaking and additional effort on top of their regular work.

He explained the agenda for the candidate schedules for the remainder of this week and next week that had been distributed to the Regents. The first week there were two meetings on O'ahu at Mānoa and Leeward Community College, meetings at Kaua'i Community College, UH Maui College, and UH Hilo, with the assistance of the neighbor islands regents. All events were reasonably attended and have been posted on online for those who could not attend. There have been more visits with administrators and campus leaders this week, and they will also be seeing various campus stakeholders. In the coming week, the candidates will be going outside in the business community. He noted that from the testimony this morning, some people are concerned about the process, but the board has tried to make it open and fair as possible.

3. **Program Title:** Business

4. **Program Description (for catalog):**

The Associate in Science in Business degree will prepare students for entry-level positions in business, industry, and non-profit organizations. It is designed for students who seek to gain a solid foundation of the basic business concepts and skills necessary to contribute and create solutions in today's business environment. Upon successful completion of this program, students will acquire the knowledge and skills to apply management, marketing, and accounting concepts to improve operational performance in a business setting. This degree can help an individual jump-start a career in business or prepare them for transfer to a four-year institution.

Program Admission Requirements: None.

Graduation Requirements:

A GPA of 2.0 or higher for all courses applicable toward the degree or certificate is needed to meet graduation requirements.

5. **Program Student Learning Outcomes:**

1. Develop critical thinking and interpersonal skills applicable to real-world problems
2. Utilize creativity and logical strategies and techniques to solve complex business issues
3. Implement and apply current technical solutions to business activities, systems, and processes
4. Apply foundational management principles to the functions of planning, organizing, coordinating, and decision making to business operations
5. Demonstrate fundamental knowledge of business and technical skills to support lifelong professional development

6. **Proposed Date of First Offering:** Fall 2014

7. **Is this program offered at another UH campus?** Yes No
If Yes, specify campus. If No, why is this program offered at KCC:

8. Reason for this Program Action:

This Program Action Request reflects the process of the approved Authorization to Plan the Associate in Science in Business degree. The Business program is designed to be an articulated degree, which will enable students to transfer to a baccalaureate program. Additionally, certificate tracks will enable students to pursue concentrations in Entrepreneurship, Management, or Retail. Articulation discussions are in place to support student transferability to four-year campuses. Currently, discussions have are in progress with UH West O'ahu, UH Hilo, and UH Mānoa.

9. Board of Regents Approval Needed: Yes No

Vice President for Community Colleges

FROM: Helen Cox
Chancellor
Kauai Community College

Specific Action Requested

We request the approval of a new provisional degree, an AS in Business, at Kauai Community College.

Recommended Effective Date

The effective start date is Fall 2014. The AS in Business Program Action Request has been approved by the Assessment and Curriculum committees. All new courses applicable to the program degree have gone through the curriculum process, and will be offered beginning Fall 2014

Background

Significance/Contribution of this degree:

The Associate of Science (AS) in Business degree will prepare students for entry-level positions in business, industry, and non-profit organizations. It is designed for students who seek to gain a solid foundation of the basic business concepts and skills necessary to contribute and create solutions in today's business environment. Upon successful completion of this program, students will acquire the knowledge and skills to apply management, marketing, and accounting concepts to improve operational performance in a business setting. This degree can help an individual jump-start a career in business or prepare them for transfer to a four-year institution.

The objectives of the proposed AS in Business program is to provide students with an integrated understanding of business and economic concepts and how these concepts

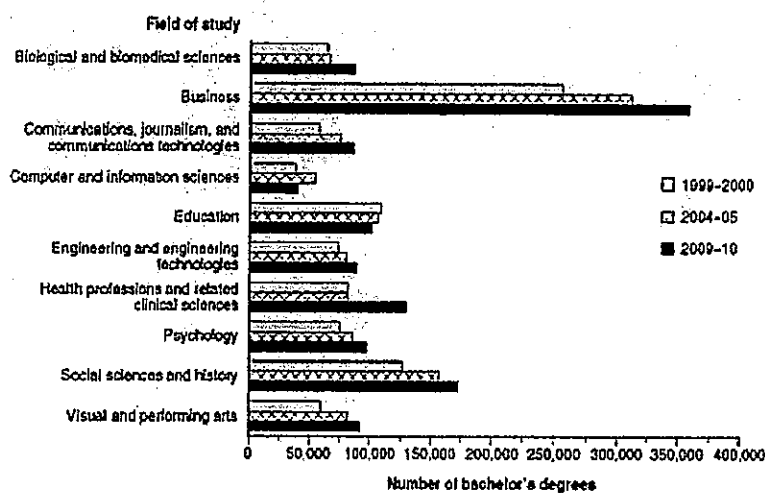

relate to business and social systems; the recognition of ethical responsibilities and accountability; the development of planning; decision-making, and other management functions; the capacity to implement and adapt to change; and the development of analytical thinking and leadership style.

Cost and Resource allocation implications:

Leeward Community College's AAS in Management program amounts were used as comparable costing analysis, and were retrieved from the Expenditures Report at <http://www.hawaii.edu/cgi-bin/iro/maps?esuhfy1011.pdf>. The comparison reflects the cost for KauaiCC's Business program as slightly higher than Leeward, especially in the first year of program implementation. This is reflective of Leeward's established program offerings and higher student enrollment numbers. However, initially there should be little additional cost to the college since the program will draw from mainly high school graduates and costs will be offset by revenues. As the program grows, additional equipment/supplies (technology update, resource materials) and faculty (1.1 full-time Instructor) will be required, but will be more than covered by tuition revenue.

Demand projections:

The proposed AS in Business program will attract participants from two main sources— Liberal Arts unclassified students seeking baccalaureate degrees, and incoming freshmen from Kauai island high schools. Kauai Community College had approximately 36% or a total of 432 students enrolled in Career and Technical Education in spring 2012. Of these students, 40.7% are in the Business Education Division. This indication of interest in the business field will fuel enrollment in this program. In the 2011 – 2012 academic year there were 140 graduates with an AA, AS or AAS degree, and additionally, 114 transfer students to four-year universities. It is expected that an increasing number of Career and Technical Education (CTE) and Liberal Arts unclassified students will choose to pursue the AS in Business degree, either independently or in tandem with another major. We anticipate enrollment of 12 students in the first year of the program with subsequent increases of 15 students in year two and three for a total of 27 and 30 students respectively. Additionally, based upon data from the National Center for Education Statistics (<http://nces.ed.gov/>), "of the 1,650,000 bachelor's degrees conferred in 2009-10, the greatest numbers of degrees were conferred in the fields of business (358,000)

Accreditation impact:

We anticipate a positive impact on Accreditation reviews as the addition of this program to Kauai Community College's curricula only serves to enhance student success and transferability to four-year institutions.

Examples of 2-3 similar models from peer institutions:

Two examples of similar models from peer institutions may be viewed at the following websites:

http://www.uhwo.hawaii.edu/default/assets/File/catalog/UHWO_General_Catalog_2012-13.pdf

<http://hilo.hawaii.edu/catalog/bba-gbus.html>

Similar programs at other UH campuses:

Similar programs exist at other UH system campuses; however, this degree is the first AS in Business degree to be offered within the UH Community College system. Hawaii and Kapiolani Community Colleges both offer AS degrees in Marketing. Additionally, Kapiolani offers a nine-credit Certificate in Entrepreneurship and Certificates of Competence in Management and Retailing. Leeward offers an AS and ASC in Management as well as various Certificates of Competence in Management, Marketing, and Retailing. Maui College offers an AAS in Business Careers, and it provides the closest match to Kauai's proposed AS in Business; however, as our students will unlikely seek a four-year degree at Maui College, this program will provide Kauai students the most viable opportunity to matriculate to UH-Hilo, UH-Manoa, and UH-West Oahu.

Statement from campus administration of new program's strategic value within UH priorities:

The proposed AS in Business degree will directly address four out of the five UHCC Strategic goals as outlined in the *UHCC Strategic Plan 2002-2010 Update Strategic Outcomes and Performance Measures, 2008-2015*. The UHCC Strategic Goals are listed below followed by the associated Kauai Community College Goals. In particular, the program focuses on Goals A, B, D, and E.

Action Recommended

We request the approval of a new provisional degree, an AS in Business, at Kauai Community College.
