Degree:	Associate in Science
Division:	Arts and Humanities
Title:	Digital Media Production
Description:	The Associate in Sciences in Digital Media Production provides creative individuals with the art and design training needed to explore and express ideas using leading-edge technology and skill-sets. Students receive integrated digital media training in one of four specializations: Character Animation, Digital Photography, Internet Publishing, and Motion Graphics. Students become life-long learners, developing the skills required for a vast array of digital media careers, including web design and development, multimedia production, digital video production, corporate communications, two-dimensional and three-dimensional animation and digital photography.
Effective Date:	Fall 2011

1. Are the program outcomes appropriate functions of the college and University? (Relationship to University and campus mission and development plans, evidence of continuing need for the program, projections of career opportunities for graduates, etc.)

The program objectives are in line with the campus and the University of Hawaii's mission of work force development as stated in the Leeward Community College 2010-2011 Catalog. The program helps to provide the trained workforce needed in the State, the Asia-Pacific region, and internationally by offering occupational, technical, and professional courses, which prepare students for immediate and future employment and career advancement. The courses offered are in General Education, Digital Arts, Digital Media, Computer Science and training in Character Animation, Digital Photography, Internet Publishing, Motion Graphics and other Multimedia Art skills. They provide as well opportunities for personal enrichment, occupational upgrading and career mobility.

According to the Bureau of Labor Statistics, U.S. Department of Labor. Occupational Outlook Handbook, 2010-11 Edition there is a projected growth rate of 14% to 19% in Multi-Media Artists and Animators job openings between 2008 and 2018.

<http://online.onetcenter.org/link/summary/27-1014.00>

2. What are the outcomes of the program? (outcomes should be stated in terms of meeting student, community or State needs. Also includes Program Learning Outcomes.)

The overall objective of the Digital Media Program is to prepare students for immediate and future employment and career advancement. A secondary objective is to prepare students for continuing education.

Digital Media discipline Student Learning Outcomes. Upon completion, students should be able to:

1. Develop critical thinking and problem-solving skills for project planning and use of necessary collaborative skills.
2. Communicate clearly and concisely, visually, verbally and in writing, using techniques appropriate for the intended audience.
3. Identify and explain standards of professionalism as they pertain to personal and work-related endeavors.
4. Exhibit a portfolio of projects related to the chosen specialization at the conclusion of the Associate in Science degree work.

Students may select a combination of courses listed in field three below to earn the A.S. in Digital Media Production with a specialization in one of the following areas.

Specialization Character Animation:

Produce 2-D and 3-D animation by generating ideas using independent judgment, creativity, and computer software for content creation.

Specialization Digital Photography:

Demonstrate competence in the production and processing of images with current electronic photographic tools and the application of electronic media to all areas of artistic and commercial photography.

Specialization Internet Publishing:

Create design prototypes, including graphic design, site navigation, and layout of content, for various Web sites and perform maintenance and updates to existing Web sites.

Specialization Motion Graphics:

Produce attention-grabbing communication design for film, television, music videos, and the Web while meeting industry standard specifications.

3. How is the program organized to meet its outcomes? (Description of curriculum organization, requirements, admission policies, advising and counseling, and other aspects of the program, with reference to its outcomes.)

The program consists of general education courses including oral and written communication, critical thinking, visual color discrimination, and information retrieval. The core requirement of the program introduces the students to general digital arts and digital media courses including portfolio presentations and a practicum course. The specializations complement the breadth and depth of knowledge students acquire in their majors.

Admission and counseling is consistent with other programs at Leeward CC. (No special admission requirements.)

4. **Who will enroll in the program? (Special target groups, if any; number of majors expected by year for first five years; expected service to non-majors; evidence of student interest.)**

This is an existing program.

5. **What resources are required for program implementation and first five-year cycle operation? (Number, source, and cost of faculty; library requirements; support personnel; estimated cost of supplies, equipment and CIP; facilities to be utilized; total**

funds required for program implementation and operation; expected source of funds, including sources of reallocated funds.)

This is an existing program.

- 6. How efficient will the program be? (Compare anticipated cost per SSH, cost per major, SSH/faculty, average class size or other quantitative measures with other programs in the college and similar programs on other UH campuses.)**

This is an existing program.

- 7. How will effectiveness of the program be demonstrated? (Projected number of graduates yearly; placement of graduates; special accreditation; student satisfaction; career and employer satisfaction, etc.)**

This is an existing program.

- 8. What change is proposed in the program? (provide specific information on both the new and old program)**

The proposed modification is to do the following:

Core Requirements

Reduce the number of credits from 30 to 24 by doing the following:

Delete 4 courses totaling 12 credits:

1. ART 112 Digital Art
2. DMED 120 NetPrep Web Development
3. DMED 130 Digital Storyboard
4. DMED 150 Film Analysis & Storytelling

Add 2 courses totaling 6 credits:

1. DMED 121 NetPrep Web Site Design
2. DMED 131 Introduction to Digital Video

General Education

Delete the following 3 courses:

1. ART 101 Introduction to the Visual Arts
 2. ECON 130 Principles of Microeconomics
 3. ECON 131 Principles of Macroeconomics
- Note that students could choose only one not both.*

Add the following 2 courses:

1. ART 112 Digital Art
2. DMED 150 Film Analysis & Storytelling

Specializations

Delete the Digital Video specialization, change the number of credits from 12 to 21 for the specialization in Internet Publishing and Motion Graphics and create 2 new specializations, Character Animation 24 credits and Digital Photography 21 credits.

Internet Publishing 21 credits

1. Delete DMED 121 NetPrep Web Site Design
2. Delete DMED 221 NetPrep Dynamic Web Publishing
3. Add DMED 120 NetPrep Internet Publishing
4. Add DMED 133 Sound Design for Digital Media
5. Add ICS 151 Structured Database Programming
6. Add DMED 220 Intermediate Web Site Design
7. Add ICS 251 Advanced Database Programming

Motion Graphics 21 credits

1. Delete DMED 141 Introduction to 3-D Animation
2. Delete DMED 243 3-D Modeling & Animation
3. Add DMED 122 NetPrep Flash Animation
4. Add DMED 130 Digital Storyboarding
5. Add DMED 133 Sound Design for Digital Media
6. Add an elective course

New Specialization in Character Animation 24 credits

1. ART 113 Basic Drawing
2. ART 198D Cartoon Drawing & 2D Animation
3. DMED 130 Digital Storyboarding
4. DMED 141 Introduction to 3-D Animation
5. ART 214 Introduction to Life Drawing
6. DMED 240 Animation & Special Effects
7. DMED 242 Character Animation
8. DMED 243 3-D Modeling & Animation

New Specialization in Digital Photography 21 credits

1. ART 101 Introduction to the Visual Arts
2. ART 115D Digital Design
3. ART 202 Digital Imaging
4. ART 207D Intermediate Digital Photography
5. ART 156 Digital Painting

9. What is the rationale for the change? (if this is a substantive change, state how it aligns with the Division goals, College Strategic Plan, College Mission Statement, or other relevant documents)

The change is substantive and it is comprised of 3 major changes.

Change 1: Increasing the specialization number of credits

It was brought to our attention by our Advisory board that the evolution of the technology in Digital Media requires more specialized skills than a couple of years ago. A Digital Media artist can no longer do everything but instead needs to concentrate his/her skills in a specific specialization and that the actual 12 credits for a specialization was not enough. Thus, at the last Advisory board meeting on May 13, 2010, unanimously the board and the DMED faculty decided to increase the specialization from 12 to 18 or 21 credits and to reduce the core requirement from 30 to 24 credits.

Change 2: Creating 2 new specializations. One in Character Animation and the other one in Digital Photography.

Because of the recent opening of the Hawaii Animation Studios, the demand for Character Animators in Hawaii has increased. According to Hawaii Animation Studios they would employ about 200 Character Animators by 2012. It is very important that we prepare our students for this emerging technology. The new specialization in Character Animation was designed by the DMED faculty in conjunction with the Hawaii Animation Studios.

The Digital Photography new specialization is designed to boost the graduation rate of the A.S. degree in Digital Media Production. The courses required by the new specialization already exist. Some of these courses are already required or can be taken as program electives. As it is now, there are no other community colleges in the UH System offering Digital Photography courses for credit. The Hawaii Photography industry is presently changing from Wet to Digital Photography. Leeward CC is ready and will provide skilled Digital Photographers.

Change 3: Deleting the Digital Video specialization.

Because Leeward CC also has a TV Production program it is not necessary to keep the specialization in Digital Video. Except for one course, DMED 230 Digital Compositing, all the other courses from the specialization will be offered on a regular basis. It will not cause any problems for the students who presently are majoring in the specialization in Digital Video. DMED 230 will be substituted by DMED 240 Animation & Special Effects.

10. Is the change substantive enough to require a change in program title? If so, explain in detail.

No.

11. Is the program currently articulated with any certificate or degree program? If so, give details, dates of agreement(s) and explain any impact the proposed change may have upon articulation.

No, the program is not articulated with other program in the UH system.

12. Will the change require additional staff, equipment, facilities or other resources? If so, provide details and indicate whether they are available.

No.

13. Will the change increase or decrease the number of required hours for attainment of the certificate or degree? If so, provide details and justification.

Yes, the new specialization in Character Animation will increase the total of credits from 60 to 63. The other specializations will remain at 60 credits. The degree should be listed as follows, Associate in Science Degree in Digital Media Production 60-63 Credits.

Because the specialization in Character Animation requires drawing skills it was necessary to add two Art classes, ART 113 Basic Drawing (3-credits) and ART 214 Introduction to Life Drawing (3-credits). Because the specializations do not require a 3 credit elective course as the other ones do, the total increase is only 3-credits.
